

REMARKS:

5 The Specification was amended to add Headings to correspond to U.S.  
patent practice. The ABSTRACT was amended to match the English Abstract on  
the face of the PCT application. It is believed no new matter was added by these  
amendments.

The claims were amended to correspond with US practice and remove  
multiple dependencies. It is believed no new matter was added by these  
10 amendments.

Examination and allowance of the new claims are earnestly solicited.

15 Respectfully submitted,

20
